thority, but a part of the sovereign power of the State to maintain social order, and to take life, liberty and all the rights of both when the sacrifice is necessary. The only restric-tion of the constitution upon this, as upon all the original powers of the government, are

that no citizen shall be deprived of his rights except by the law of the land or the judg-ment of his peers, and that no person shall be deprived of life, liberty or property with-out due process of law. The power of the State over crimes is thus committed to the legislature without any designation as to the punishment to be adopted. It is a power to produce the end by adequate means; a power to establish a criminal code

with competent sanction. It is in the discretion of the legislature not only to define the crimes, but to prescribe the punishment by law. It is true that many rights of the citizen are consecrated and in-violable; but the right of eligibility to office is not so sacred by any provision of our con-stitution. Important as this right is, it stands as the right to life itself; it stands subject to the general power of the legislature over crimes and punishment. Disqualification to to hold office as a punishment is not incompatible with that part of the constitution which provides that each house shall be the cach house shall decide upon the quali-fication of its own members, without con-

by authority. On the contrary, the highest judicial authorities sustain the position I have presented. I concur. Mr. Speaker, in the resolution reported by the committee, for the reason that while under section 748, sub-section 1 of the code, Mr. McKenna would be ineligible, sections 5226 and 5227 seem to require that there should not only be a conviction, but a sentence or judgment of the court therein to render him infamous. These two provisions of the statute should be construed together, and the sitting member should have the benefit of the doubt created by the

party bias nor party exigency to contract my judgment or influence my decision. The question of his eligibility is one of some doubt, and I prefer to give the sitting member the benefit of that doubt, hence, I concur in the resolution that McKenna is entitled to Mr. McKenna was declared entitled to his seat by a vote of 62 to 5.

A BROKEN WHEEL

Throws a Train from the Track on Northern Road with Disastrous

Sr. Paul, February 2.-About noon to-day startling rumors were affoat in the streets rearding a serious accident on the line of the t. Paul, Minnesota and Manitoba railroad, Fergus Falls division. Inquiry at the gen-eral offices of the road resulted in a state-ment of facts. The officials have given out for publication all the information they had received. The Fergus Falls train, which left St. Paul at 7:30 this morning, in charge of Conductor McManus, consisted of an engine, baggage-car and two coaches, the latter having a light passenger list. At 10 o'clock, when two miles north of Ox river, forty-one miles from St. Paul, and running, so far as can be ascertained, at the rate of thirty miles an hour, one of the wheels under the rear coach suddenly broke. The coach became ditched from the train, rolled down a steep embankment, turning over twice, and landing sixty feet from the track. The following passengers were injured: A Eggers, land examiner of road, seriously injured in back and spine; D. M. C. left shoulder hurt; L. E. > SCHURZ HAS A SAY. The secretary of the interior, in response to the senate resolution adopted January

I am informed that during the debate on the severalty bill in the senate, on the 26th ultimo, a remark was made that the interior department had voluntarily and wilfully withheld the report of the Ute commission from the knowledge of the senate. I beg to say that the communication of that report was not called for by the senate until Thursday, the 27th of January. On the 28th and 28th ultimo the criticism was repeated, while the senate resolution calling for the report did not reach this department until the 28th. The volume of the report will convince the senate that it was impossible to make the necessary copies, with all the available force the department has for such purpose, in less time than has been consumed upon it. I did not transmit the report without a call from the senate, for the simple reason that it contains nothing about the allotment to the Utes in severalty, except what was contained in the letter addressed by me to Hou. Richard Coke, dated the nineteenth ultimo, which was communicated by him to the senate in debate on the first day's discussion on the pending bill and the statement of the Ute commission as to the delays which prevented them from proceeding with the allotment of lands to the different bands of Utes, in compliance with the act of June 15, 1880.

Which is Now Devastating the Valley of the Sacramento River.

San Francisco, February 2.—The flood in Sacramento river culminated this morning at Sacramento, the water being within a foot and a half of the top of the levee at that city. The levee below the town broke and overflowed the town of Washington. Yolo county, opposite Sacramento, is inundated, and the camage in both places reaches an enormous sum. The entire Sacramento valley presents the appearance of an inland sea. Numberless houses have been swept away, but, fortunately, the loss of life, so far as reported, is very small. Hills, high ground and levees in the overflowed district are covered with live stock, and there is a great demand for boats to save the cattle, sheep, etc., remaining, as a great number have been drowned. It is raining in the Sierra Nevadas from Plumas to Calaveras counties, as there is an immense deposit the Sierra Nevadas from Plumas to Calaveras counties, as there is an immense deposit of snow. Should the rain extend high upon the mountains another flood is probable. Should it come on top of the already immense body of water in the Sacramento and San Joaquin valleys, there is no telling where the inundation would end or the destruction of property stop, as the water covers places that were never overflowed before.
